★Read Address and Version

In standby state, long-press “ /5” to enter password interface. This interface will show the address of the equipment and the version number of the isolator.

Note:

-  : Message, number 1
-  : Call management center, number 2
-  : Handfree, number 3
-  : Monitor, number 4
-  : Unlocking, number 5

★Zone

1. Zone 1 ~ 6(AL1 ~ AL6)

AL1~AL6 are delay zones, allowing arming/disarming at the same time. When zone enables delay arming, the user should leave before delay time is up in order to avoid false alarm.

2. Zone 7(Emerg.)

Emerg. is connected to panic button. It isn't delay zone, so arming and disarming are not required. Pressing panic button, the indoor monitor will send alarm information to management center immediately but will not ring.

3. Zone 8(24H)

Zone 8 is a 24-hour zone. It isn't a delay zone, so arming isn't required. If zone 8 is triggered, indoor monitor and management center will ring at the same time.

4. Indicator Light

For arming: When setting delay arming, the light flashes quickly. After setting, the light stays on.

For alarm: When the delay arming is triggered, the light flashes quickly. The light stays on during the alarm.

Note: if indoor monitor is a sub indoor monitor, it doesn't has alarm function.

★Zone Wiring

1.Detector wiring is normally closed.

- One detector is connected to one zone:

- When several detectors are connected to one zone, they are connected in a series.

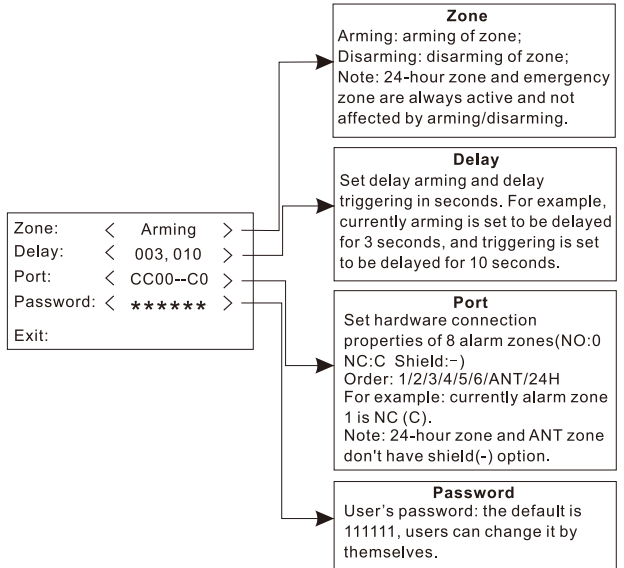

2. Detector wiring is normally opened.

- One detector is connected to one zone:

- When several detectors are connected to one zone, they are connected in parallel.

Arming, disarming, shielding, zone NO/NC, delay arming and delay triggering can only be set in OSD menu. The settings should follow corresponding wiring methods as below:

Note:

- In monitoring state, if there is no flat camera, the system will exit monitoring state automatically.
- Calling elevator should be supported by the elevator module.
- Indoor monitor cannot start the video when the power is supplied by storage battery.
